Re: Alice Paddock #8-J
Sec. 1-T22S-R37E

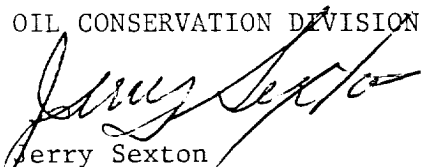

Production on the above well is being reported on form C-115 in both the Wantz Granite Wash pool and the Wantz Abo.

Our records show the well was originally completed in the Wantz Granite Wash in September 1979. In May of 1985, it was plugged back to the Wantz Abo and the Wantz Granite Wash was plugged and abandoned.

Form C-104 was submitted to change ownership from Gulf to Chevron and the pool was incorrectly listed as Wantz Granite Wash. Please correct your records to show the pool as Wantz Abo and send this office a corrected C-104 to correct our files.

Thank you

OIL CONSERVATION DIVISION
