Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

InFlow Petroleum Resources, LP took over operations of this property in February of 2004. We have not had an adequate opportunity to review the behind-pipe pay in this well and would like to request an extension of TA status for another 12-months. During the next 12-months, we will reach a determination to P&A the well or return it to production.

There is currently a CIBP @ 2850' which covers all perms. The last MIT test wa run on 12-20- 02.
