Judah Oil, LLC respectfully request to extend the temporarily abandonment status of this well for 6 (six) months. The casing parted and after numerous attempts to retrieve the tubing, we were only successful recovering 5000'. This wellbore can be sidetracked and production can resume from the Bough C formation.

The casing has been filled with packer fluid and will be tested to 500 psi for 30 minutes.

Lea County New Mexico OCD field representative, Maxey G. Brown, witnessed the test on June 1, 2011.

This Approval of Temporary Abandonment Expires 12/1/2011
