Was Immediate Notice Given?    Yes   No   Not Required   If YES, To Whom? Olivia Yu-NMOCD Shelly Tucker-BLM   Date and Hour: I1/15/2017 10:55am   If YES, Volume Impacting the Watercourse.   Yes   No   If a Watercourse Reached?   Yes   No   If a Watercourse was Impacted, Describe Fully.*	Source of Release: Tank Overflow													
By Whom? Dakota Neel  Was a Watercourse Reached?  Yes No  If a Watercourse was Impacted, Describe Fully.*  RECEIVED By Olivia Yu at 10:28 am, Nov 20, 2017  Describe Cause of Problem and Remedial Action Taken.*  A stuck float resulted in a tank overflow. The float was repaired.  Describe Area Affected and Cleanup Action Taken.*  All of the fluid remained inside of the lined containment. A vacuum truck was dispatched to recover all freestanding fluids. Concho will have the spill area evaluated for any possible impact from the release and we will present a remediation work plan to the NMOCD for approval prior to any significant remediation activities.  Thereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
