NATURE OF RELEASE

Type of Release: Fire	Volume of Release: <1 gallon	Volume Recovered: none
Source of Release: Flare	Date and Hour of Occurrence 01/22/2018 01:00 pm	Date and Hour of Discovery 01/22/2018 1:15 pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Lea County – Olivia Yu	
By Whom? Callie Karrigan	Date and Hour 01/22/2018 05:45 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	

If a Watercourse was Impacted, Describe Fully.*
Not applicable.

RECEIVED
By Olivia Yu at 7:40 am, Feb 07, 2018

Describe Cause of Problem and Remedial Action Taken.*

A high pressure event in the separator occurred, sending gas and fluids (condensate) to the flare. Less than a gallon of condensate was released out of the flare, igniting two small areas adjacent to the pad. The areas were 10'x5' and 12'x7. The well was shut-in.

Describe Area Affected and Cleanup Action Taken.*

Contaminated soil will be cleaned up and disposed at the R360 disposal facility.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
