Land Supervisor  
COG Operating LLC

Re: Matador's Leo Thorsness 13-24S-33E AR #135 (the "Leo Thorsness #135").

Dear Sean,

I am writing to advise COG Operating LLC of Matador Production Company's intent to file an application for a permit to drill our Leo Thorsness #135 (a draft C102 of which is enclosed), which is a one-mile stand-up lateral in the W/2 W/2 of Section 13, 24S, 33E, Lea County, New Mexico. The Leo Thorsness #135 will be completed in the Third Bone Spring at an approximate TVD depth of 11,900 feet.

COG currently operates its Deckard Fee No. 001H in this same spacing unit in the W/2 W/2 of Section 13. The Deckard Fee No. 001 is completed in the Second Bone Spring at an approximate maximum TVD depth of 11,034 feet. Accordingly, these wells are in separate, non-competing reservoirs with over 850 feet between their TVDs, as well as being a few hundred feet apart in horizontal spacing.

Matador plans to spud the Leo Thorsness #135 on approximately August 11, 2019. Given the above, Matador requests that COG waive any objections to Matador's Leo Thorsness #135 under NMAC 19.15.14.9 and 19.15.15.12. This would facilitate us receiving an approved drilling permit faster in order to meet our expected spud date. We appreciate your consideration of this request.

If COG is willing to waive any objections under NMAC 19.15.14.9 and 19.15.15.12 to Matador's Leo Thorsness #135, please sign below to confirm such waiver. If you have any questions, please give Trey Goodwin or me a call at your convenience.

Sincerely,

Jon Filbert

KAP
