13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date				
of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of				
proposed completion or recompletion. ConocoPhillips Company respectfully requests approval to shut in the wells listed below which are producing from Philmex Lease;				
located in Lea County, NM, at 17S, 33E. This request is prompted by matters beyond reasonable control of the lessee. The current				
worldwide supply/demand ratio and lack of storage capacity is compounded by the COVID-19 national emergency. Our expectation is				
that the lack of storage capacity and low commodity price will be temporary in nature. We are requesting the flexibility to maintain these wells in shut-in status until they once again reach economic viability. This lease and wells are capable of producing oil as				
evidenced by recent production reports. We seek to perpetuate the lease due to the wells capability to produce and that this cessation				
of production is temporary.				
Shut in to begin 6/1/2020. Production will resume when market conditions improve and storage constraints ease.
