ConocoPhillips Company respectfully requests approval to shut in the wells listed below. This request is prompted by matters beyond reasonable control of the lessee. The current worldwide supply/demand ratio and lack of storage capacity is compounded by COVID-19 emergency. Our expectation is that the lack of storage capacity and low commodity price will be temporary in nature. We are requesting flexibility to maintain these wells in shut-in status until they once again reach economic viability. This lease and wells are capable of producing oil as evidenced by recent production reports. We seek to perpetuate the lease due to the wells capability to produce and that this cessation of production is temporary.

Shut in to begin 6/1/2020. Production will resume when market conditions improve and storage constraints ease.
