	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

ConocoPhillips Company respectfully provides this request for additional surface disturbance to remediate a spill. Off pad dimensions are approximately 150'x 8' and total reported volume estimate is 25 bbls. Our plan is to pull a backhoe into the area and hand dig into the backhoe bucket.

Attached is an aerial image which shows the location and out initial disturbance area to be remediated.

We request your approval to begin clean up.

Thank you for your time spent reviewing this request.

Accepted 7/22/2020 - NMOCD

14. I hereby certify that the foregoing is true and correct.
