 Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Yates Petroleum Corporation plans to plug and abandon this well as follows: this well was drilled to 125' x 12.25" diameter. No ground water was encountered in the process. No surface casing was run.

We will remove the locking lid and tin horn at ground level, then fill the wellbore bottom to top with redi-mix cement. Install a 4" dry hole marker, with well information welded onto post. We will drag and re-contour the area around the well and road. Directions to this well are attached.

NOTE: No Pits, tanks or bins were used while drilling this well.
