Re: Quantum Resources Management, LLC (OGRID 243874)  
Inactive Well Report March 2013

Dear Operator:

Rule 19.15.5.9 NMAC provides that the listing of a well on the Oil Conservation Division's (OCD's) inactive well list as a well inactive for more than one year plus 90 days creates a rebuttable presumption that the well is out of compliance with 19.15.25.8 NMAC.

An operator may rebut that presumption by providing evidence that the well is in compliance with 19.15.5 NMAC.

The wells identified in attachment "A" currently appear on the OCD's inactive well list as wells inactive for more than one year plus 90 days. Quantum Resources Management, LLC (Quantum) has provided sufficient information to rebut inactivity.

Although these attachment "A" wells still appear on the inactive well list, the OCD should not consider them as out of compliance with 19.15.5.9 NMAC or include them in calculating Quantum's compliance with Rule 19.15.25.8 NMAC. This letter rebutting presumption expires May 14, 2013.

Sincerely,

A handwritten signature in black ink, appearing to read "Daniel Sanchez", is written over a horizontal line.

Daniel Sanchez, Compliance and Enforcement Manager

Ec: E.L. Gonzales, District I  
Randy Dade, District II  
Charlie Perrin, District III  
Denise Gallegos, Financial Assurance Administrator
