13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

The following items have now been corrected on this well.

1. Due to compressor leakage the area has been contained to prevent on going saturation.
2. Contaminants to the SW edge of pad have now been hauled off.
3. All containments holding fluid have been netted.
4. Frac tanks have been removed and all spillage has been picked up and hauled off.
5. Unused storage containers have been removed.
6. Bird and Bat cone is not required on compressor exhaust.

Accepted for Record Purposes.
Approval Subject to Onsite Inspection.
If BLM Objectives are not achieved,
additional work may be required.
