## CHEVRON – RÉVERSE UNIT – SCHEMATIC – OPERATING AND MAINTENANCE – CLOSURE PLAN

## Notes:

1. This is a generic layout, exact equipment orientation will vary from location to location.

2. This is a schematic representation, so drawing is not to scale.

Operating and Maintenance Plan

1. All recovered fluids and solids will be discharged into reverse tank.

2. Reverse tank will be continuously monitored by designated rig crew so that tank will not be overfilled.

3 Rig crew will visually inspect fluid integrity of reverse tank on a daily basis.

4. Documentation of visual inspection of reverse tank will be captured on daily completion morning report

Closure Plan

1. All recovered fluids and solids will be removed from reverse tank and hauled off of site

2. All recovered fluids and solids will be disposed of at a suitable off-location waste disposal facility
