An MIT was conducted on the Aztec 27-1 on 8/12/2013 to show integrity of the wellbore. In previous history, the well had remedial work to convert it to a water supply well for a waterflood project on offset leases and was TA'd. We are currently in the development phase of the waterflood and are requesting a 2 year extension of the temporarily abandonment status so we can utilize the Aztec Sate 27-1 wellbore as a means of water supply in the future.

This Approval of Temporary
Abandonment Expires 11-15-2013
