Well was pressure tested (MIT) 04/05/2013 and failed. Hole in tubing is suspected. A workover rig has been contracted to rig up Tuesday or Wednesday 1/7/2013 or 1/8/2013 to pull well and fix problem. Well was immediately shut-in upon failure of test.

We have been awaiting approval of operator change to PPC Operating Company by the NM BLM so that we could get permission from the BLM to repair well.
