Please accept this revised C-102 to replace our "As Drilled" plat that was filed and approved on November 14, 2013 with our completion report on Form C-105.

It was determined that the control grid system used in generating the C-102 had created a shift that made the section corners inaccurate. No footage calls, physical locations or bearings were changed from the original plat.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
