13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Cimarex Energy Co. has been notified by the NMOCD Hobbs office that a review of well file indicated missing paperwork for the Atoka completion. Cimarex plugged and abandoned the well in 02/15, which prompted the well file review.

In an effort to clean up the well file the Atoka & Mississippian completion and DHC is submitted for approval. Cimarex completed the well in the Mississippian and Atoka pools in December 2006, the two zones were abandoned in February 2008, approved sundry 9/16/08. Production was reported from 12-2006 to 2-2008 in the Mississippian pool but not the Atoka. The Mississippian and Atoka pools have common ownership. Cimarex contacted Mr. Ed Martin at the NMOCD and he indicated a reallocation of production is not necessary for the Mississippian & Atoka pools, as all production from the well has been previously reported and the two pool have common ownership.

Please see attached well history for the GTO 10 State Com #1 well. The well was re-entered and completed in the Caudill; Mississippian (Gas) pool and subsequently recompleted in the Caudill; Atoka (Gas) field and down hole commingled.
