13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Request 60 day TA status. We have been awaiting Right-of-Way from the BLM, and have finally received approved ROW to lay a new buried injection line to this well. Contract to lay line has been let to Dudley Services, Artesia, NM. As soon as the line is laid, we will remove the CIBP, run a packer, run a new MIT and return this well to active injector status. This should take less than 60 days.

An MIT test was run on this well on 5-19-2015, held 560# f/30 min OK. Witnessed by Mr. Whitaker.

This Approval of Temporary
Abandonment Expires 7/19/2015

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☐ or an (attached) alternative OCD-approved plan ☐.
