Hi Maxey,

According to Jim, this is State Authority, can you approve for us?

Wayne,

The Federal lease was terminated due to not having a well producing in paying quantities (SWD). The well is located on Fee surface with Federal minerals. On a Disposal well Federal minerals were not impacted. This will be a State authorization. thanks

Hi Jim,

Can you get this to the person in BLM for processing. We are P&A our Old Atha Well, attachment enclosed.

Yes the minerals dictate who is in charge of the plugging. Might send the forms to Mr. Jim Amos/BLM.

Hi Maxey,

The land is private and the minerals are Federal, does that make a difference? and who over at the BLM should we send it to?

Wayne

Wayne,

After reviewing the C-103 for Plug and Abandon of the Key Energy, ATHA #1 well, our records indicate that this is a Federal surface/Federal minerals, please submit all required forms (3160-5) to the BLM for approval.

Have a great day.

Maxey

Dear Maxey and Paul,

Please find a C-103 for Key's Atha SWD Well R-3694 API# 30-025-04861 to P&A. Once you approve, or approve with conditions, can you forward the attached approval and the attached BLM form over to the BLM office for their records.
