	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company respectfully submits this subsequent report of interim reclamation activities and seeks further deferral of reclaiming two sides of the location.

We had requested deferral of interim reclamation to accommodate drilling of additional wells in 2015. However, that deferral has expired and our drilling plans postponed.

Reclamation has been performed on the east and south sides of location by: flipping the location, spreading topsoil around the reclaimed areas, and contouring to blend with surrounding area.

Existing infrastructure and future drilling plans prompt the request to defer interim reclamation of the north and west sides.

14. I hereby certify that the foregoing is true and correct.
