13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company (COP) respectfully submits this subsequent report of reclamation activities.

This well was abandoned in November 2013. Reclamation activity was completed March 11, 2014. Equipment was removed. Excess caliche was removed. Re-contouring was performed as needed, along with spreading clean top soil over location.

COP understands that this site will be monitored until reclamation goals for revegetation have been met.

Thank you for the time spent reviewing this report.

14. I hereby certify that the foregoing is true and correct.
