13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy requests approval to change the interim reclamation plan submitted in the APD for the Hallertau 4 Federal 9H. The onsite meeting notes indicated that reclamation would be required in the south, SW, and SE. This plan is what we would like to follow, and would also allow for the 300 ft needed for production facilities on the north side.

Please see the attached Production Facilities and Interim Reclamation Diagram.

14. I hereby certify that the foregoing is true and correct.
