13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

ConocoPhillips Company respectfully requests to suspend all operations on Lease NM130738, Section 33, T26S, R32E due to matters beyond reasonable control of the lessee. The Ramsey Gas Plant, which is owned by Western Gas Partners, LP experienced a Force Majeure event on December 3, 2015 and is currently down. After the plant went down on December 3, 2015, the wells on this lease went offline. These wells are operated with gas lift, and require buyback gas from the Western trunk line to have sufficient gas volumes to bring the wells back online. Given the Ramsey plant is down, buyback gas is not available, preventing operation and production from the lease until further notice. ConocoPhillips has not received any guidance from Western Gas Partners regarding a possible restart date for the Ramsey plant, and is unable to speculate when the plant will be available again. In anticipation of the outage being more than 60 days we are requesting to suspend all operations in order to perpetuate the lease.

14. I hereby certify that the foregoing is true and correct.
