Dear Chris:

In reference to the above described well, please find attached Form C-144 along with the Lab Analysis of the soil samples from the drilling pit. Although this pit was constructed when the location was built for the drilling of this well, this pit was not used as a drilling pit. A closed-loop system was used during the drilling phase of this well. We are now planning to close this pit and we cordially request approval from the NMOCD to do so.

Thank you and if there are any questions, please feel free to contact me at 918-524-9200.

Sincerely,

Matthew L. Pride
