Subject: Shell 26 State 3- API 3002538171

Mr. Leking,

Chesapeake had a water tank struck by lightning last night during the storms that blew through on the Shell 26 State #3. We were contacted this morning at about 7:00am by El Paso gas, notifying us that our water tank was hit by lightning and was still smoking. Tatum VFD was called to location. A poly liner is in place under the battery protected by gravel. Vac trucks recovered 70 barrels from inside the lined firewall. Chesapeake plans to remove the impacted gravel and steam the liner clean. BBC will send a initial and final C-141. If you have questions or need further info please give me a call.
