Re: Request for exception to Rule 107 J
Tubingless Completion
Ophelia 27 709H

EOG Resources, Inc. requests an exception to NMOC Rule 107 J regarding required production tubing. EOG requests a tubingless completion for our Ophelia 27 709H to allow greater flowback after frac stimulation.

Our plan is to install production tubing as soon as flow decreases, which should occur within 6 months.

Thank you for your consideration of this request. If additional information is needed, please contact me at 432 686-3689.

Sincerely,

EOG Resources, Inc.
