HOBBS OCD

APR 14 2017

RECEIVED

State of New Mexico Energy Minerals and Natural Resources Department  
Oil Conservation Division Hobbs District Office  
Attention: William Sonnamaker

Regarding: Raya Energy Corp. Jennings B Federal 2 Bradenhead Test Chart

Mr.. Sonnamaker,

We failed the first bradenhead test due to a hole in the tubing. This is the successful chart after pulling the well and repairing the tubing. I believe my Field Supervisor Karl Harris, coordinated with an OCD representative during this test and provided the paperwork, but forgot to give him the chart, which he just mailed to me. Please let me know if you need any additional information from us.

Best regards,

Phillip H. Roberson  
President,  
FieldPoint Petroleum Corp. and Raya Energy Corp.
