| | <input type="checkbox"/> Convert to Injection | <input type="checkbox"/> Plug Back | <input type="checkbox"/> Water Disposal | |

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Temporary Abandonment Preparations actual procedures as follows:

10/26/16 - 11/8/2016: Set bridge plug at 14660'. Dumped and tagged 35' cement on top of plug. Tested casing with chart recorder and BLM witness. See attached MIT and current wellbore schematic.

Devon Energy Production Co., L.P. respectfully requests temporary abandonment status for the Mad Dog Fed Com 1 for the purpose of planning for SWD conversion or offering the wellbore to partners on the well who have shallow mineral rights. Devon expects to have the well returned to beneficial use within 2 years (11/2018), or sooner depending on development activity and interest from other operators.

*Last Recorded Production 02/2016
TA status accepted until 11/08/2017*

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #363911 verified by the BLM Well Information System
