HOBBS OCD

JUN 20 2017

RECEIVED

Maxey,

The NVAWU 15 is a TA'd well that received a 1 year TA extension in 2016 that expires on 7/7/17. This well is actively being worked to be plugged but the work will not be completed prior to the current TA deadline, we have the appropriate partner approval but are still waiting to hear back from the tract owner before we can proceed with plugging the well. Could this well get a 3 month TA extension to get the plugging work completed before the TA expires?

Attached is the last C-103 from the TA extension in 2016 with the MIT charts. If you have any questions or need any additional information please let me know.

Cheers,
Ryan

Office: (432)687-7452
Email: RyanWarmke@Chevron.com

Extend 3 months on 7/7/2016
approved chart test
Approval of Temporary
Abandonment Expires 10/7/2017
If well is not P&A'd by 10/7/2017
any T/A extension will require a
current chart test.
