following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection. CHEVRON respectfully requests the ability to change the BOPE rating for the subject well, from a 5M system to a 10M system while drilling the production sections that penetrate the Wolfcamp formation. (All intermediate sections, which TD in the Bone Spring, will have the previously submitted 5M system setup). *All equipment will be 5M as per the original submittal, but the annular will be 10M, as well as the necessary upgrades to the choke manifold. (Upgrade 2" choke lines to 3" with a third choke). Please find attached, the 10M BOP choke schematic.						
All questions/concerns should be directed to Bryson Abney, Chevron Drilling Engineer, at 713-372-6447.						
14. I hereby certify that the foregoing is true and correct. Electronic Submission #382377 verified by the BLM Well Information System
