13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Pad site was ripped and rolled, approximately 6-12 inches of topsoil from spoil pile was spread over the site followed by contouring east to west. LPC seed mix was broadcast and disced over area. Seed mix documentation attached. Site is being fenced with 3 strand barbed wire to protect site from cattle intrusion and will be removed once vegetation is established.

14. I hereby certify that the foregoing is true and correct.
