13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

32. Additional remarks, continued

monitored in the producing wells, it can be determined if this is true. If it is, the injection wells will be plugged.

07/18/2018 BLM approved TA status

This well was going to either be returned to injection or plugged in a year. The reservoir testing required to evaluate the reservoir, to determine if this injection well has a positive/or no impact on the production in this area is not complete. EOG respectfully requests a 6 month extension to complete this work/evaluation.
