13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Rosehill Operating Company, LLC respectfully requests permission to connect the new gas line from tank battery 11S directly to the existing gas meter at the proposed compressor pad. Since the compressor will not be installed initially, the gas can flow directly to ETC's sales gas line.

CENTERLINE DESCRIPTION of a proposed Pipeline Easement being located in Section 11, T-26-S, R-35-E, N.M.P.M., Leo County, New Mexico, and being more particularly described as follows:
BEGINNING at a point on the South side of a Proposed Compressor Pad site, which point bears N 17 T31'38" W, a distance of 2,951.4 feet from a USGLO Brass Cap found for the Southeast corner of said Section 11;
THENCE N 37 T26'33" E, a distance of 595.3 feet to a point in the Northeast-quarter of said Proposed Compressor Pad site, which point bears S 13°22' 19" W, a distance of 2,053.8 from a USGLO Brass cap found for Northeast corner of said Section 11 for the END OF THIS EASEMENT, being 595.3

14. I hereby certify that the foregoing is true and correct.
