13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Marathon Oil Permian LLC has completed the reclamation work at the Green Frog Caf? Federal 1H as requested in the COA? of the Rusty Anchor 7 Federal Com #1H or now the Black Horse 7 Federal Com 1H. There was African Rue found at this location that was sprayed and removed prior to any reclamation. The extra topsoil was spread on the south, east, and north sides in order to protect the viability and seed. Windrows were constructed on the east side to prevent off-site migration of stabilized soils due to well pad erosion. Berms were constructed on all 4 sides with and compacted. The topsoil was seeded with 1/2 acre of BLM #1 seed.

14. I hereby certify that the foregoing is true and correct.
