13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleting horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

6/2018 through 7/2018 Rosehill Operating Company flared 17796.26 mcf from the Tatanka Federal 001H well.

Rosehill Operating Company has prepared and submitted a sundry for permission to connect the new gas line from tank battery 11S directly to the existing gas meter at the proposed compressor pad and waiting on approval. Since the compressor will not be installed initially, the gas can flow directly to ETC's sales gas line. As soon as approval is granted the gas line will be run so we can sell the gas.

14. I hereby certify that the foregoing is true and correct.

**Electronic Submission #430876 verified by the BLM Well Information System  
For ROSEHILL OPERATING COMPANY, LLC, sent to the Hobbs**
