	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Fasken Oil and Ranch, Ltd. requests a shut in status for the above well. It is uneconomic right now. We may decide to move uphole and recompleat the well at a later date. But until that time, we would like for it to stay shut in. Attached is the production history from the past 12 months. It has been shut in since July 30th, 2018.

SI APPROVED TILL 12/31/2019

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #447984 verified by the BLM Well Information System
