13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

Caza proposes to change the 9.625" casing setting depth and casing grades.

9.625" 40# J55 0 - 3800'  
9.625" 40# L80 3800' - 5200'  
9.625" 40# HCL80 5200' - 5763'.

Cement volumes will be adjusted accordingly.

A DV tool will be set at +/- 3900'. This depth will be revised once the top of the Capitan Reef has been determined.

Attached is the cement and casing design worksheet.

*All previous COA still apply.*

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #433611 verified by the BLM Well Information System

For CAZA OPERATING LLC, sent to the Hobbs

Committed to AFMSS for processing by DEBORAH MCKINNEY on 09/05/2018 (18DLM0594SE)
