13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.

ConocoPhillips Company respectfully submits this subsequent report of operations. Please note that the change in surface location was approved in a previous sundry notice and is documented in the attached As Drilled Plat.

We are also providing report on installation of multi-bowl wellhead in accordance with Drilling Condition of Approval. Multi-bowl wellhead was installed June 7, 2018. Manufacturer's representative was on location to oversee installation.

Thank you for your time spent reviewing this report.

14. I hereby certify that the foregoing is true and correct.
