13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Due to original equipment being stuck in the hole at 13,285', we called Kerry Fortner at OCD to request permission to cut off and abandon @ 13,250'. Original perforations are 13,628'-13,652. Per Mr. Fortner, we will pump 25sx cement through stuck tubing into original perforations, displace full tubing volume, and cut off @ 13,250'. We will then place a CIBP above the stub and cap with cement.
