ConocoPhillips Company respectfully submits this record clean up notice of intent and subsequent report for this well 30-025-40138. Based on our July 2019 conversation this report to include Aquamarine State #4 into the existing surface commingling approval CTB-623 is submitted.

All production is from the Maljamar; Yeso West pool. There is no degradation of resource and no waste of resource because the producing formation is the same as the adjacent lease, and no impact to royalty.
