Attachments: Scan_Electric Disconnect for BTA Buckeye_Feb 18 2020.pdf

Bob,

Lea County Electric is currently in high demand of new services due to the oilfield. That being said retirements are typically last on our list. If I were to guess, the retirement can take up to 2 or 3 months.

Thanks,

Eduardo Ray Rivera

Subject: Retirement of power line at Buckeye SWD {External E-mail}

Ray,

Can you provide an estimated date for when the power lines will be retired at the Buckeye SWD?

(And please copy Kerry Fortner on the reply?)

An estimated date isn't intended to bind the Cooperative to a specific time – instead it's more for Kerry and me – placing a duty on us to watch over the final abandonment on the location and properly documenting it in the State files as a caretaker. Based on other work that he has seen, Kerry has said he realizes it could be many months before the work is performed.

Thanks again for any help you can provide!

Bob.

Mr. Hall,

Lea County Electric Coop. will permanently retire any power line poles in you requested area (Buckeye SWD). NOTE: BTA will not incur any cost.

Thanks,

Got it.

Also added the attachment of the old email.

Subject: FW: Request for Permanent Disconnect and Retire Power Lines - Meter #61967 (Buckeye)

Hi Amanda,

I need your help on one last issue with the disconnection and retirement of the power lines for this meter.
In order for the NMOCD to close the site, the inspector is asking for a written confirmation that the poles and wire belonging to the Cooperative will be removed.

It has become a more important issue, because the NMOCD is holding up issuance of a drilling permit for a well until the Buckeye location is properly documented as closing and being in progress for the final restoration – which includes the future removal of the power lines.

I would appreciate your help in forwarding this request to Ray or whomever might be able to help me with this. I can give any assurance needed to make sure that the Cooperative will be able to bill BTA for the costs that they are supposed to cover for this future work.

Again, I appreciate your help. A note from the Cooperative that I can forward to the NMOCD will take care of the site closing for the Buckeye SWD.

Thanks,
Bob Hall

Hi Amanda,

Please find attached the Disconnect Service Order Request and a letter that gives a few more details on the service to be disconnected and retired.

Thank you for your help today,
Bob.
