Re: Notification and Verification of a Standard Well Location for the Peachtree
24 Federal Com 706H (30-025-44752), Section 24, T26S, R33E, Lea
County, NM

Dear Mr. Lowe:

Included with this letter are the following documents demonstrating that the above referenced well has been drilled at a standard oil well location:

- C-102 Plat dated February 13, 2020, showing the final location of the Peachtree 24 Federal Com 706H;
- An "Area of Common Ownership Plat" separately showing the spacing unit for the well; and
- A Certification of Ownership demonstrating the outlined area on the plat is comprised of three federal leases, with uniform ownership.

19.15.16.15.C(7) NMAC provides that in area of common ownership (here, three federal leases that have been communitized) the setback requirements only apply to the outer boundary of the area of uniform ownership, not the spacing unit within the area of uniform ownership. Since the area to the east towards which each of these wells encroach is within the documented "area of common ownership," these well are at a standard location and approval of a non-standard location for the well is not necessary.

Please place this Notification and Verification of a Standard Well Location in the well file for Peachtree 24 Federal Com 706H (30-025-44752).

Respectfully submitted,

Certification of Ownership

I have reviewed the ownership of the oil and gas leasehold (Federal Oil & Gas Lease USA NM-02965-A) covering Section 24: W2, leasehold (Federal Oil & Gas Lease USA NM-122622) covering Section 24: E2, and leasehold (Federal Oil & Gas Lease USA NM-122621) covering Section 13: All, located in Lea County, New Mexico, for purposes of identifying an "area of common ownership" as set forth in NMAC 19.15.16.15.B(8) and C(7). As of this date below, the ownership in the above described leases and lands is identical ownership as defined in 19.15.12.7 B NMAC.
