(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the Harry Bass Drilling Company and

Champlin Oil & Refining Co.  
(Company or Operator)

State "A"  
LEASE

Well No. 1 in 0 (Unit)

C SW 1/4 SE 1/4 of Sec. 32, T. 10S, R. 37E, NMPM, Bohol - Devonian Pool

County.

FULL DETAILS OF PROPOSED PLAN OF WORK

(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

According to Case No. 1285, Order No. B-1032 dated August 14, 1957, we obtained authority to pull and salvage 5-1/2" production casing above 9,100' after plugging well above the producing interval at 11,621' - 11,701'. The plan then called for re-drilling the well directionally to the same producing horizon.

Finding it unecconomical to carry out the above procedure due to a high free-point on the 5-1/2" casing, we have now decided to plug and abandon this well.

Plugging will be carried out according to the following procedure:

1. Set Baker cast iron bridge plug 11,015' with 2 sacks cement on top.
2. Cut 5-1/2" casing off at 4,930' and salvage all casing above this point.
3. Set a 25 sack cement plug in top of 5-1/2" casing at 4,930'.
4. Set a 50 sack cement plug at bottom of intermediate casing string bottom of which is at 4,265'.
5. Set 30' cement plug at the well head.
