Gentlemen:

The subject well was drilled in March 1987. The well was completed in the San Andres P-1 zone. A pumping unit was set and the well has been on test since 4-11-87. The well produces 2 BOPM and 60 BWPD. The well is not commercial and is shut-in pending approval to plug and abandon. It is requested a one time test allowable of 160 bbls be approved. Attached is a Form C-104 reflecting this request.

Yours Very Truly,

Kelly Jamerson  
Engineer
