12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Seely Oil Company requested and received approval to clean out the referenced well and return it to water injection.

During the process of cleaning out the 5-1/2" csg., it was discovered that the csg. had parted at 550'. Seely Oil Company proposes to run 3-1/2" tbg. to approximately 40' above the injection interval. Sand will be spotted across the injection interval and the tbg. will be cemented to surface as csg. 2-1/16" Salta lined tbg. will be installed to control injection. Verbal approval was received from Mr. Gary Wink on 3/23/00.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
