

- Core No. 1 7070-7118' (Abo). Recovered 21'. 21' tan dol. with few anhydrite inclusions. Fine to med. crystalline highly fractured slight to fair intergranular and pin pt. por with some zones of good por. Bright yellow to blue fluor, fair show oil. Some scattered zones bleeding salt water.
- DST No. 1 7070-7118' (Abo). Tool open 5 minutes, closed 45 minutes. Tool open two hours, fair blow to weak. Rec 90' drilling fluid and 1300' blk sulphur water. IHP 3310, ISIF 2710, IFP 190, FFP 630, FSIF 2220 after 90 minutes. HSP out 3310.
- DST No. 2 7130-7215 (Abo). IFP 20 minutes, very weak blow and died in 15 minutes. ISIF 45 minutes 2590, IFP 100, FFP 185, FSIF 2535 in 60 minutes. HSI in and out 3385, damage none. Rec 145' drilling fluid, 195' salty sulphur water.
- DST No. 3 7250-75' (Abo.) Tool open 2 hours, recovered 360' mud cut sulphur water. GTS in three minutes on FF period. ISIF 2105 in 45 minutes. IFP 75, FFP 145 in 2 hours. FSIF 1775 in 1 hour, HF in and out 3415, damage ratio -1- no damage.
- DST No. 4 7272-7315 (Abo). Tool open 2 hours, GTS in 4 minutes. 1800' free oil and 2800' oil and GCM. IFP 5 minutes. GTS 4 minutes, ISIF 2789, IFP 282, FFP 695, FSIF 2605, 1 1/2 hour. HF in and out 3419. No damage.
- Core No. 2 7315-7349. Cut and recovered 34' in Abo. 34' dol. Good intercrystalline and vuggy por., occasional thin tight zones. Multiple random small frac. Good stain, odor, fluor. Big oil and a small amount of water. All analyzed.
- DST No. 5 7315-49 (Abo). Tool open 2 hours 12 minutes. GTS in 4 minutes. GTS in 4 minutes. Oil to surface in 1 hour 12 min. Flowed 14 BC in one hour. Reversed out 2 BC and 120' GCM. Well flowed by heads. IFP 5 minutes. Damage ratio, none.
- Core No. 3 7349-76' (Abo). Rec 25 1/2'. 25 1/2' tan dol. vuggy to slight fractures. Good por. and show. Approx 3' anhydrite, all analyzed.
- Core No. 4 7376-7400' (Abo). Rec 24'. 24' tan dol., fine to medium crystalline with fair to moderate frac. Slight to fair vugular por. Show and bleeding some oil. All analyzed.
- Core No. 5 7400'-7414' (Abo). Rec 14'. 14' tan dol. fine to med. crystalline vuggy to highly fractures. Moderate bleeding of oil from all fracs. All analyzed.
- DST No. 6 7370-7414 (Abo). Tool open 2 hours. Rec 5200' free oil, 1480' GCM with oil. No damage. IFP 10 min. GTS 7 minutes 475, ISIF 2580, in 45 min. FFP 1278, FSIF 2380 in two hours, HF 3475 in and out, field measurements.
- DST No. 7 7440-68' (Abo). Tool open three hours. GTS in 14 minutes. Rec 512' free oil, 1480' GCM. 14.5 BC rec in tanks and 500' of O&GCM was circ from drill pipe. IFP 15 min. GTS in 14 min., 439, ISIF 2893, FFP 1360, FSIF 2893, HF in 3527, out 3496.
