

10. Restoration of Surface: If well is productive, pits will be backfilled and leveled as soon as practical. The plastic pit liner will be placed in the bottom of the pit before backfilling. Upon final abandonment the well site will be leveled and cleaned and the road ripped, with land returned as near as practical to original condition.

11. Operator's Representatives: Field personnel who can be contacted concerning compliance of this Surface Use Plan are as follows:

Drilling and Production: James F. O'Briant
306 Bldg. of the Southwest
Midland, Texas 79701
