Conversion to Injection

Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Harvey E. Yates Company would like BIM to reinstate the previously approved APD (dated 10/1/90 & cancelled from letter dated 11/22/91) on the Young Deep Unit #28.

This well was previously applied and approved for the Wolfcamp (10,970'). After additional information, Harvey E. Yates Company is re-submitting this Sundry, a new C-102 (plat), a new arc survey and revised 3160-3 to reflect both the surface location change and the casing/mud program changes. Also we would like you to note the right-of-way for an electric line, flowline and/or temporary gas line, all will follow the archaeological survey's access road (see archaeological map if needed). If power is needed a 14.4/25 KV voltage unit will be used.

If you have any questions, please contact Vickie Teel or Micky Young @ 505/623-6601.

14. I hereby certify that the foregoing is true and correct
