Hobbs, New Mexico 88240

Attention: Mr. Dan Gillett

Gentlemen:

Reference is made to your letter dated March 2, 1966, wherein you request authority to complete your State of New Mexico "DB" Well No. 1 located in Unit B of Section 25, Township 20 South, Range 35 East, Lea County, New Mexico, as a tubingless completion in an undesignated Atoka Gas Pool.

It is our understanding that 2 7/8 inch casing has been set at 11,990 feet and perforated in the Atoka formation in the interval from 11,378 feet to 11,611 feet. Said casing string was cemented with 1450 sacks of cement and the top of the cement is at 7200 feet by temperature survey.

Texaco Inc. is hereby authorized to complete the subject well in the aforesaid manner, provided, however, that if any difficulties arising from corrosion should develop, we may require that additional cement be placed on the 2 7/8 casing to come back into the intermediate casing string.

Very truly yours,

A. L. PORTER, Jr.  
Secretary-Director
