Re: Flaring of Casinghead Gas
State "A" No. 41, Unit G
Sec. 9, T-19-S, R-38-E

State of New Mexico
Energy and Minerals Department
Oil Conservation Division
P. O. Box 1980
Hobbs, NM 88240

Per your letter dated November 1, 1986, an exception to Division Rule 306 to flare casinghead gas is required for the State "A" No. 41. Currently, this well is uneconomical to produce and is in a shut-in status.

Therefore, Amoco Production Company will not apply for an exception to Division Rule 306 at this time. In the event the status of the well changes drastically, we will submit the proper forms to the Oil Conservation District Office.

Questions regarding this well may be directed to John Breeden or Steve Brownlee at (505) 393-1781.
